1. IQAC - Overview, Purpose and Background

Chunk ID: msajce_iqac_chunk_01 | URL: <https://www.msajce-edu.in/iqac.php#tab1> | ~430 tokens

Context: Explains what IQAC is, why it was established per NAAC guidelines, and its overall role in sustaining quality in MSAJCE - critical for accreditation and institutional queries.

INTERNAL QUALITY ASSURANCE CELL (IQAC) - Overview

In pursuance of the National Action Plan of the National Assessment and Accreditation Council (NAAC), Bangalore, for performance evaluation, assessment and accreditation and quality upgradation of institutions of higher education, the NAAC proposes that every accredited institution should establish an Internal Quality Assurance Cell (IQAC) as a post-accreditation quality sustenance measure.

Since quality enhancement is a continuous process, the IQAC will become a part of an institution's system and work towards realizing the goals of quality enhancement and sustenance. The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the performance of institutions. The IQAC will make a significant and meaningful contribution in the post-accreditation phase of institutions. During the post-accreditation period, the IQAC will channelise the efforts and measures of an institution towards academic excellence.

The guidelines provided will facilitate the institution in the creation and operation of the IQAC. The work of the IQAC is the first step towards the internalization and institutionalization of quality enhancement. Its success depends upon the sense of belongingness and participation it can inculcate in all the constituents of the institution. It will not be yet another hierarchical structure or record-keeping exercise in the institution; it will be a facilitative and participative voluntary system of the institution. The IQAC has the potential to become a vehicle for ushering in quality by working out intervention strategies to remove deficiencies and enhance quality. Quality circles in industries operate on similar lines.

3. IQAC - Benefits, Coordinator Role and Operational Features

Chunk ID: msajce_iqac_chunk_03 | URL: <https://www.msajce-edu.in/iqac.php#tab1> | ~410 tokens

Context: Describes the benefits of IQAC, the crucial role of the IQAC Coordinator/Director, and the operational features that guide quality assurance at MSAJCE.

IQAC Benefits - IQAC will facilitate and contribute:

- To a heightened level of clarity and focus in institutional functioning towards quality enhancement and facilitate internalization of the quality culture.
- To the enhancement and integration among the various activities of the institution and institutionalize many good practices.
- To provide a sound basis for decision making to improve institutional functioning.
- To act as a change agent in the institution.
- To better internal communication.

The Role of Coordinator / Director:

The role of the coordinator of the IQAC is crucial in ensuring the effective functioning of all the members. The coordinator of the IQAC may be a senior person with expertise in quality aspects. She/he may be a full-time functionary or, to start with, she/he may be a senior academic/administrator entrusted with the IQAC as an additional responsibility. Secretarial assistance may be

facilitated by the administration. It is preferable that the coordinator may have a sound knowledge about the computer, its various functions and usage for effective communication.

Operational Features of the IQAC:

Quality assurance is a by-product of ongoing efforts to define the objectives of an institution, to have a work plan to achieve them and to specify the checks and balances to evaluate the degree to which each of the tasks is fulfilled. Hence devotion and commitment to improvement rather than mere institutional control is the basis for devising procedures and instruments for assuring quality. The right balance between the health and growth of an institution needs to be struck. The IQAC has to ensure that whatever is done in the institution for education is done efficiently and effectively with high standards. In order to do this, the IQAC will have to first establish procedures and modalities to collect data and information on various aspects of institutional functioning. The coordinators of the IQAC and the secretary have a major role in implementing these functions.
